Εξηγήσεις: Στον κατάλογο με την περιοχή ημερομηνίας και ανακαλύψεων (leg. NAOM/NLUK: *Eikamp/Kluge*) τα χαρακτηρισμένα είδη κατατίθενται στο φύση-ιστορικό μουσείο του πανεπιστημίου Ηρακλείου/ Κρήτη ή/και στη συλλογή αραχνών του ερευνητικού ιδρύματος και του μουσείου Senckenberg, κεντρικός αγωγός φύσης της Φρανκφούρτης ΑΜ, και (για την επιστημονική εργασία) κρατιέται εκεί. Μέχρι σήμερα **1.550 αράχνες**, από το **91** είδη καθορίζονται αυτή τη στιγμή. Ο **αριθμός καρτέλων αρχείων** χαρακτηρίζει τον αριθμό που στέκεται πίσω από εκείνο τον λατινικό προσδιορισμό του είδους τετράγωνες αγκύλες [**SMF xxxx**], κάτω από τον οποίο (leg. *Eikamp&Kluge*) οι ενημερωμένες απαριθμημένες αράχνες (καθώς επίσης και όλα τα υλικά και σημαντικά ταξονομικά στοιχεία τύπων) καταλαμβάνονται και κατατίθενται στο **Senckenberg μουσείο Φρανκφούρτη**. Εκείνοι οι εντός παρενθέσεως μόνιμοι αριθμοί (**SMFxxxx**) είναι εκείνοι οι αριθμοί καταλόγων, κάτω από τους οποίους τα περαιτέρω καθορισμένα είδη από την Κρήτη είναι παρόντα στη συλλογή αραχνών του μουσείου Senckenberg. Μπορούν να δουν επίσης **on line** κάτω από <http://sesam.senckenberg.de>

Erläuterungen: Die in der Liste mit Datum und Fundort (leg. NAOM/NLUK: *Eikamp/Kluge*) gekennzeichneten Arten sind im Naturhistorischen Museum der Universität Heraklion/Kreta und/oder in der Arachnologischen Sammlung des Forschungsinstitutes und Naturmuseum Senckenberg, Frankfurt am Main, hinterlegt und werden dort (für wissenschaftliche Bearbeitungen) aufbewahrt; bis dato **1.550 Spinnentiere**, davon **91 Arten** derzeit determiniert.

Die hinter der lat. Bez. der Art in eckiger Klammer stehende Nr. [**SMF xxxx**] bezeichnet die **Karteikartennummer**, unter der die (leg. *Eikamp & Kluge*) aktuell katalogisierten Spinnen (sowie alles Typenmaterial und wichtige taxonomische Daten) beim **Senckenberg Museum Frankfurt** erfasst und hinterlegt sind; die in runder Klammer stehende Nr. (**SMF xxxx**) sind jene Katalognummern, unter denen weitere determinierte Arten aus Kreta in der Arachnologischen Sammlung des Senckenberg Museums vorhanden sind. Sie können auch **online** eingesehen werden unter <http://sesam.senckenberg.de>.

Annotation: The identified species, listed with date and habitat (leg. NAOM/NLUK: *Eikamp/Kluge*) are deposited and stored for scientific transcription at the Museum of Natural History of the University of Heraklion/Crete and/or within the arachnology collection of the Research Institute and Museum of Nature Senckenberg, Frankfurt. Until today **1.550 arachnids** (spiders), **91 species** of them are currently determined.

The number behind the Latin description of the species within the square brackets [**SMF xxxx**] identifies the number of the index card (leg. *Eikamp & Kluge*) where the currently catalogued spiders (plus all species material and important taxonomical data) are ascertained and deposited (Museum of Nature Senckenberg, Frankfurt a.M./Germany). The number within the round brackets (**SMF xxxx**) is the Catalogue number under which further determined species from Crete exist (within the Arachnology collection of Senckenberg Museum). They can be viewed online also at <http://sesam.senckenberg.de>.
