Tractors on Crete (Part 2)

The type varieties of tractors in pictures

16-PS-Lanz-Bauernbulldog von 1951

With the first part of the leaflet series “Tractors on Crete” we introduced with pictures 10 types from the sixties [with IMT (MF; Massey Ferguson), **International** (Case New Holland), **Vladimirc** (Balearus), **Ford**, **Brasov** (UTB), **David Brown**, **Yanmar**, **Steyr**, **Fiat** und **Kubota**] (therefore see at [http://www.kreta-umweltforum.de/Merkblaetter_en/274-08E.pdf]) that we continue here with further agricultural tractor types (images and short descriptions).

The figure on the left shows a **Mitsubishi** type MT250D; for details see [[www.idosi.org/aejaes/jaes3\(5\)/18.pdf](http://www.idosi.org/aejaes/jaes3(5)/18.pdf)]; the figure to the right shows a **Bertolini**, type 450, among others his seat and vehicle combinations was tested positive by the German Federal agricultural technology, dept. Messtechnik, A-3250 Wieselburg/Erl. [Pictures: *H.Eikamp*, Kreta 2007].

The two lower tractors on page 1 show left: type H 90 XF of manufacturer **Hürlimann**, details see at: [http://www.kramp.com/shop/action/category_50_-3_11101_166470_0_H+90+XF] and right: a tug of **Antonio Carrera** (Ticrone 5000), details see at: [<http://www.tractorbynet.com/forums/all-other-brands/89158-antonio-carrera-tractors.html> - 72k -]

Left, a tractor from **John Deere**; details see at: http://www.deere.com/en_US/deerecom/usa_canada.html and right: FIATAGRI 100 90 from **New Holland**, for details visit the company's website from New Holland under: <http://construction.newholland.com/home.aspx?RL=GEEU>

Left: a tug (used mainly in forestry in Crete) of **SAME dilfino 35**, specifications, see at: http://www.puddingsworld.com/Machinery/Same_Trattori/same/same_delfino_35.htm. Right: From the Czechoslovakia a tractor of the brand **ZETOR (5213)**; for details see: <http://www.tractordata.com/td/001/td1689.html>. The following 2 figure show types of older **Steyr** products
